LABORS OF MR. GUTZLAFF IN CHINA. In a communication from Mr. Gutzlaff, dated Macao, Dec. 20, 1834, describing un extensive tour on the coast of China, in which he visited the island of Formosa, he gives the following interesting descriptions. Distribution at Po-tow on the Sabbath.

I could not help myself, and yielded to their wishes.

Hospitality and Kindness of the People. In visiting village by village, hamlet, by hamlet, where I principally scattered the Scriptures, I met with the most affectionate reception. There was not a hovel where we were not invited to stay over the breakfast and to partake of their homely fare. The women, too, showed themselves most officious to render us small services, and waited for us with tea when they saw us advance toward their houses. A man whom I had known previously took a great interest in making the people acquainted with the object of our mission, in order to draw and to increase the interest felt in them. Indeed I have never found so much kind Scriptures as on this occasion. Therefore S, C. I blessed the Lord for his goodness, whilst praying that he might pour out his Holy Spirit for the salvation of these poor people. As the demand was so very general, and my visits frequent, my large stock amounting to more than I used to circulate formerly in Southern Asia within two years, was exhausted.

Swamping of the boat-loss of Medicines-Damage to Books.

I took the last box to a village inhabited by the refuse of the people. The sea was running high and our boat swamped; the book box, however, was carried safely on shore by the surf. All wet, I jumped through the surf on shore. My medicine was all lost and floating about; but I rejoiced that at least the box had been saved. Deferring the distribution till some of the books which had gotten wet might become dry, I succeeded at first to overcome the impatience of the numerous bystanders; but all on a sudden, they told me plainly that they must Stones, and ornamental Monuments, of the best prudent, and have only exposed me to their application. Prices and credits will be made ac bitter vituperations; thus I went to work, and the volumes were very soon scattered. Curiosity of the people—Preaching to the Multitude.

The curiosity of the people to see us was here greater than in any of the other places. Even the females came down to the beach to have a peep at us. During Dry Goods, Groceries, Hard ware, Cutlery, the time our people were baling the boat, I preached to my curious auditors, who behaved very quietly as soon as I commenced speaking, and moreover took a lively interest in the doctrines. Having propounded questions, received answers, repeated the subject, and explained upon the principal point, I parted from them in a most cheerful mood.

SANDWICH ISLANDS.

The efforts of the Missionaries at the Sandwich Islands, to introduce education and the arts of civilized life, have been very successful during the past year. A newspaper in the native tongue has been esta-

blished at Honolulu, and it promises to be paper published at Mani. There are now on the islands, forty-one missionaries, and lowing Goods, viz: twenty-one teachers, printers, physicians, &c. whose stations embrace a population of 76,141 people.
